

THE MEDIA (GIVE US A WAVE) AND MOI

This quarter started not with a bang but a SCRUNCH. Engine bearers went on the little club car. Enter Mike (Superspanner) Epps and all was well so quickly I nearly signed on as apprentice. Thanks Mike.

Letter from Rick OJ (Hawaii) Good luck with the Exams! He passed on an enquiry from Rupert Williams, BBC T.V. films unit who wanted to do a film on Ron Lane (Mr Sunshine). I passed this on to Keith - right up his street - as in truth have had more than my 15 minutes of "fame". Have been turning away T.V., Radio, the press + music press for years now - privacy rules OK? Enough is enough.

Even so the Telegraph gave us a nice mention as Geo. H. had placed 3 Egitu in Lord Linley's Gallery for the guitar Exhibition. Have only just heard of Georges cancer ap and hear Rod Stewart has a problem too. Form a queue here. Seriously - EVERY BEST WISH for speedy recoveries all round.

Seems a lot of Formula One was at Damon Hill's sell-out concert!! Paul Stewart tells me he used his Pearly on 4 numbers and was a bit surprised at the recognition the guitar got too!! VERY, VERY pleased to hear he is back on form and in good health even though the racing teams have all gone. My favourite was his F.3 team. Paul gave me many racing/team jackets and could be regarded as my tailor in this respect. I wear them all with pride - pity the jackets outlasted the outfit, but reckon they'll outlast me too!!

I've been half promised a visit in the new Macbarn F.I. and have my P.S.R cap at the ready..... OK Paul?
